PART V: REVIEW OF SUMMARY, METHODOLOGY AND EXPLANATION

Texas Labor Code § 413.011(a-d), titled *Reimbursement Policies and Guidelines*, and Division rule at 28 Texas Administrative Code §134.1, titled *Medical Reimbursement*, effective May 2, 2006 set out the reimbursement guidelines.

This request for medical fee dispute resolution was received by the Division on March 4, 2008.

1. U.S. Bankruptcy Judge Michael Lynn issued a "STIPULATION AND ORDER GRANTING RELIEF FROM AUTOMATIC STAY TO PERMIT CONTINUANCE AND ADJUDICATION OF DISPUTED WORKERS COMPENSATION CLAIMS BEFORE THE TEXAS STATE OFFICE OF ADMINISTRATIVE HEARINGS," dated August 27, 2010, in the case of *In re: Renaissance Hospital – Grand Prairie, Inc. d/b/a/ Renaissance Hospital – Grand Prairie, et al.*, in the United States Bankruptcy Court for the Northern District of Texas, Fort Worth Division in Case No. 08-43775-7. The order lifted the automatic stay to allow continuance of the Claim Adjudication Process as to the Workers' Compensation Receivables before SOAH, effective October 1, 2010. The order specified John Dee Spicer as the Chapter 7 Trustee of the debtor's estate. By letter dated October 5, 2010, Mr. Spicer provided express written authorization for Cass Burton of the law office of Burton & Hyde, PLLC, PO Box 684749, Austin, Texas 78768-4749, to be the point of contact on Mr. Spicer's behalf relating to matters between and among the debtors and the Division concerning medical fee disputes. The Division will utilize this address in all communications with the requestor regarding this medical fee dispute.
2. By letter dated May 26, 2011, the attorney for the requestor provided *REQUESTOR'S AMENDED POSITION STATEMENT (RENAISSANCE HOSPITAL – DALLAS)* that specified, in pertinent parts, an "Additional Reimbursement Amount Owed" of \$2,140.88 and an "alternative" "Additional Reimbursement Amount Owed" of \$2,493.54. The Division notes that the amount in dispute of \$2,422.21 specified in Part IV above is the original amount in dispute as indicated in the requestor's *TABLE OF DISPUTED SERVICES* submitted prior to the *REQUESTOR'S AMENDED POSITION STATEMENT*.

3. For the services involved in this dispute, the respondent reduced or denied payment with reason code:
- 97 – Payment is included in the allowance for another service/procedure.
 - W10 – No maximum allowable defined by fee guideline. Reimbursement made based on insurance carrier fair and reasonable reimbursement methodology
 - W4 – No additional reimbursement allowed after review of appeal/reconsideration.
 - W3 – Additional payment made on appeal/reconsideration.
4. This dispute relates to services with reimbursement subject to the provisions of Division rule at 28 TAC §134.1, effective May 2, 2006, 31 TexReg 3561, which requires that, in the absence of an applicable fee guideline, reimbursement for health care not provided through a workers' compensation health care network shall be made in accordance with subsection §134.1(d) which states that "Fair and reasonable reimbursement: (1) is consistent with the criteria of Labor Code §413.011; (2) ensures that similar procedures provided in similar circumstances receive similar reimbursement; and (3) is based on nationally recognized published studies, published Division medical dispute decisions, and values assigned for services involving similar work and resource commitments, if available."
5. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
6. Division rule at 28 TAC §133.307(c)(2)(G), effective December 31, 2006, 31 TexReg 10314, applicable to disputes filed on or after January 15, 2007, requires the requestor to provide "documentation that discusses, demonstrates, and justifies that the amount being sought is a fair and reasonable rate of reimbursement in accordance with §134.1 of this title (relating to Medical Reimbursement) when the dispute involves health care for which the Division has not established a maximum allowable reimbursement (MAR), as applicable." Review of the submitted documentation finds that:
- The requestor's amended position statement asserts that "the fair and reasonable reimbursement amount for this hospital outpatient admission should at least be commensurate with the average amount paid by all insurance carriers in the Texas workers' compensation system in the same year as this admission for those admissions involving the same Principal Diagnosis Code and Principal Procedure Code."
 - In support of the requested reimbursement methodology the requestor states that "Ordering additional reimbursement based on the average amount paid system-wide in Texas achieves effective medical cost control because it prevents overpayment... creates an expectation of fair reimbursement; and... encourages health care providers to continue to offer quality medical care to injured employees... Ordering additional reimbursement for at least the average amount paid for a hospital outpatient admission during the same year of service and involving the same Principal Diagnosis Code and Principal Procedure Code ensures that similar procedures provided in similar circumstances receive similar reimbursement... The average amount paid for similar admissions as put forward by the Requestor is based on a study of data maintained by the Division."
 - The requestor submitted documentation to support the state-wide, annual, average reimbursement in Texas for the principal diagnosis code and principal procedure code of the disputed services during the year that the services were rendered.
 - The requestor has explained and supported that payment of the requested amount of \$2,140.88 would satisfy the requirements of Division rule at 28 TAC §134.1.

The request for additional reimbursement of \$2,140.88 is supported. Thorough review of the submitted documentation finds that the requestor has discussed, demonstrated, and justified that the amount of \$2,140.88 being sought is a fair and reasonable rate of reimbursement for the services in dispute.

7. In the alternative, the requestor proposes that "it is also justifiable to order as much in additional reimbursement as is owed under the Hospital Facility Fee Guidelines – Outpatient because the Division's new fee guidelines, while not in effect at that time, are presumptively fair and reasonable reimbursement under the law and data from the Medicare Outpatient Prospective Payment System for these dates of service is still available for calculating the amount due." Review of the submitted documentation finds that:
- In support of the alternative requested reimbursement methodology the requestor states that "The data necessary to calculate the Maximum Allowable Reimbursement is readily available from the Medicare Outpatient Prospective Payment System. Therefore, the new fee guidelines as adopted in 28 TEX. ADMIN. CODE § 134.403 provide a presumptive measure for the fair and reasonable reimbursement amount."
 - The requestor did not submit documentation to support the Medicare payment calculation for the services in dispute.
 - The fee guidelines as adopted in Division rule at 28 TAC §134.403 were not in effect during the time period when the disputed services were rendered.
 - The Division disagrees that the fee guidelines as set forth in §134.403 are "presumptively fair and reasonable reimbursement under the law" for dates of service prior to the date the rule became effective. No documentation was found to support such a presumption under law.

- While the Division has previously found that Medicare patients are of an equivalent standard of living to workers' compensation patients, (22 TexReg 6284, July 4, 1997), Texas Labor Code Section 413.011(b) requires that "In determining the appropriate fees, the commissioner shall also develop one or more conversion factors or other payment adjustment factors taking into account economic indicators in health care and the requirements of Subsection (d)... This section does not adopt the Medicare fee schedule, and the commissioner may not adopt conversion factors or other payment adjustment factors based solely on those factors as developed by the federal Centers for Medicare and Medicaid Services."
- The requestor did not discuss or present documentation to support how applying the proposed payment adjustment factors as adopted in Division rule at 28 TAC §134.403, effective for dates of service on or after March 1st, 2008, would provide fair and reasonable reimbursement for the disputed services during the time period that treatment was rendered to the injured worker.
- The requestor did not submit nationally recognized published studies, published Division medical dispute decisions, or documentation of values assigned for services involving similar work and resource commitments to support the alternative requested reimbursement.
- The requestor did not support that payment of the requested alternative additional amount of \$2,493.54 would satisfy the requirements of Division rule at 28 TAC §134.1.

The request for the alternative additional amount of \$2,493.54 is not supported. The requestor has not demonstrated or presented sufficient documentation to support that the alternative additional amount requested of \$2,493.54 would provide a fair and reasonable rate of reimbursement for the services in dispute.

8. Division rule at 28 TAC §133.307(d)(2)(A)(iv)(IV), effective December 31, 2006, 31 TexReg 10314, applicable to requests filed on or after January 15, 2007, requires the respondent to provide a statement of the disputed fee issue(s), which includes: "a discussion regarding how the submitted documentation supports the respondent's position for each disputed fee issue." Review of the documentation submitted by the respondent finds that the respondent has not discussed how the submitted documentation supports the respondent's position for each disputed fee issue. The Division concludes that the respondent has not met the requirements of §133.307(d)(2)(A)(iv)(IV).
9. Division rule at 28 TAC §133.307(d)(2)(A)(iv)(V), effective December 31, 2006, 31 TexReg 10314, applicable to requests filed on or after January 15, 2007, requires the respondent to provide "documentation that discusses, demonstrates, and justifies that the amount the respondent paid is a fair and reasonable reimbursement in accordance with Labor Code §413.011 and §134.1 of this title if the dispute involves health care for which the Division has not established a MAR, as applicable." Review of the submitted documentation finds that:
 - The respondent's position statement asserts that "TASB has adopted a consistent application of 230% of Medicare allowable amounts based on surgical groups... as fair and reasonable... DWC has ruled... that 213.30% of Medicare fee schedules is fair and reasonable for ambulatory surgical centers. We feel our established allowance of 230% of Medicare fee schedules is fair and reasonable for outpatient surgical services as those services are comparable to services provided by an ambulatory surgical center."
 - The disputed services were not rendered at an ambulatory surgical center.
 - The Division's ASC fee guideline as set forth in 28 TAC §134.402 does not apply to the services in dispute.
 - The respondent did not explain or demonstrate how outpatient surgical services are comparable to services provided by an ambulatory surgical center.
 - The respondent did not submit documentation to support that outpatient surgical services are comparable to services provided by an ambulatory surgical center.
 - While the Division has previously found that Medicare patients are of an equivalent standard of living to workers' compensation patients, (22 TexReg 6284, July 4, 1997), Texas Labor Code Section 413.011(b) requires that "In determining the appropriate fees, the commissioner shall also develop one or more conversion factors or other payment adjustment factors taking into account economic indicators in health care and the requirements of Subsection (d)... This section does not adopt the Medicare fee schedule, and the commissioner may not adopt conversion factors or other payment adjustment factors based solely on those factors as developed by the federal Centers for Medicare and Medicaid Services."
 - The respondent did not explain or discuss how its proposed payment adjustment factor of 230% was arrived at or how this adjustment factor would result in a fair and reasonable reimbursement for the services in dispute.
 - The respondent did not submit documentation to support that a payment adjustment factor of 230% would result in a fair and reasonable reimbursement for the services in dispute.
 - The respondent did not present documentation to support its Medicare payment calculation.
 - The respondent did not submit documentation to support that the amount paid is a fair and reasonable rate of reimbursement.
 - The respondent did not submit nationally recognized published studies, published Division medical dispute decisions, or documentation of values assigned for services involving similar work and resource commitments to support that the amount paid is a fair and reasonable reimbursement for the services in dispute.
 - The respondent did not explain how the amount paid satisfies the requirements of Division rule at 28 TAC §134.1.

The respondent's position is not supported. Thorough review of the submitted documentation finds that the respondent

has not demonstrated or justified that the amount paid is a fair and reasonable rate of reimbursement for the services in dispute. The Division concludes that the respondent has not met the requirements of Division rule at 28 TAC §133.307(d)(2)(A)(iv)(V).

10. The Division finds that the documentation submitted in support of the fair and reasonable methodology proposed by the requestor based on the average amount paid by all insurance carriers in the same year for admissions involving the same principal diagnosis code and principal procedure code as the services in dispute is the best evidence in this dispute of an amount that will achieve a fair and reasonable reimbursement for the services in this dispute. Reimbursement will therefore be calculated as follows. Review of the medical bill finds that the principal diagnosis code for the disputed services is 836.0. The principal procedure code is 80.6. The requestor submitted documentation to support that the average, state-wide reimbursement for this diagnosis code and procedure code performed in 2007 was \$3,581.60. This amount less the amount previously paid by the respondent of \$1,440.72 leaves an amount due to the requestor of \$2,140.88. This amount is recommended.
11. The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation supports the \$2,140.88 additional payment amount sought by the requestor; however, the alternative additional amount sought of \$2,493.54 is not supported. The Division concludes that the carrier's response was not submitted in the form and manner prescribed under Division rule at 28 Texas Administrative Code §133.307(d). The Division further concludes that the respondent failed to support that the amount paid by the insurance carrier is a fair and reasonable reimbursement in accordance with Division rule at 28 Texas Administrative Code §134.1. As a result, the amount ordered is \$2,140.88.
